DOGSDAYS EDITORIAL

We take our pen in hand on this ospiush occasion to inform the populashon of Bingville and surrounding country through the eddytorial columns of the Bugle to the effect that it wont be moren a wk or 10 days or thereabouts until Dogdays will be in our midst and we be sorry for it.

Dogdays comes onct per annum rain or shine and allus occurs at their heighth through the munnth of August. Why Dogdays is we dunno but it is said that Dogdays happens when the Dogstar (wotever that is) in its ascendancy (wotever that is.) In other words when the Dogstar ascends then Dogdays is in their zenith. We lookt in the dickshonary to ascertain what a zenith is but the dickshonary dont seem to shed mutch light on the subjeckt. Then we askt Ame Hillyer, our talented loryer & legal lite what it ment and while Ame said the word sounded very familyer to him he countd seem to jest adzackly place it but he kalkulated it referred to some figgle term or some loggyrithm in higher mathmatiks.

What we desire to say about Dogdays on this occasion is that the Bingville Board of Helth ort to take some akshion or other to keep the numerous dogs of Bingville from biting innocent bystanders and others. The worst trouble about Dogdays is that if a dog happens to bite a person during Dogdays the person git hyderfoby and goes mad and snarls jest like a dog and akct somethink skandalus. This is a turrible menace to civilisashon and the Board of Helth ort to do somethink to prevent it. Aint it detrimental to helth to git bit by a dog during Dogdays and contractt hyderfoby? Certingly it is. And aint it the bizness of the B. of H. of Bingville to see that this is a healthy town and is kep sutch? Of course. Then ortent the B. of H. to do all in its power to keep dogs from biting us during Dogdays? We should say it ort.

Layin all joaks aside there is too doggone menny dogs in Bingville, and some of em aint worth kicken outen the road and yit a person would hesytate to kick some dogs hereabout outen the road becuz if they did they would in all probability git a junk of the calf of their leg bit out by said dog. Wot

good is so confounded menny dogs in Bingville ennyhow? They aint no good. The only time dogs hereabouts come in handy was a cupple of yrs ago when there was sitch bitter rivalry betwixt Hardscrabble and Bingville as to which town had the most populashon. Hardscrabble had nearly 300 souls and when Bingville counted up we only had 276 souls and Hardscrabble would have had the best of us if Seth Dewberry our lion harted town constubble haddent of happen to think to inclood the dogs in Bingville amungst the populashon and when that was did we had 19 more populashon than Hardscrabble incloodng dogs of course.

Another reason why we hate and despise Dogdays is that the wether gits so turrible muggy that the buro drawers stiks titeren a bung & to git em open you haft to use a axe or a hatchet or a chisel or somethink and then like as not you'll bust the drawers. We recolлект that last Dogdays a year back this coming Ogust our eddytorial buro drawer in which we kept our one biled shirt for Sunday go to meetin wear sweld shet and fer five wks we couldnt git into the drawer & as a consyquence we diddnt have no biled shirt to wear and as a consyquence we diddnt git to church and as a result we deteriorated somethink awful morally.

DOGSDAYS IS A NOOSANTS!

Personal Mentchion

Dad Henderson tuk his ole muzzle loader shotgun and went out into the woods after squirls last Tuesday morning brite & early and walked five mile to the top of Sawridge Mountain afore he seen a doggawn squirl and when he went to load up his gun to shoot the squirl he was flabbergasted to discover that he had went and forgot to bring enny powder with him, so after indulgin in turrible perfanity, Dad returned home in disgust.

Bed Wade of Snake Bend was in Bingville last wk. shaking hands with friends. Ben called at the Bugle office and paid us a pleasant call but that was all. If Ben had paid us a few dollars on his back subscription we would have took it very kind of him, but he made no mentchion of subscription, as if sitch a thing was furthest from his thorts.

Hen Weathersby, prop. of our general store, has received a box of smokd herrings which makes turrible good lunch for his customners who would rather buy a few salt herrings and crackers than go home to dinner in the heat of the day. Salt herrings makes a person turrible thirsty though, and Hen, who has to lug drinkin worter for the store, says he has lugged moren enuff worter to take away the profits on the salt herrings.

Bale Hawkins purchased a new pr. of boots at the co. seat last wk. which proved too tite for him, so Bale he got mad and went and cut a hole in one of his boots to give his bunion more room, being as the bunion was naining him so, but he diddnt take of the boot to cut a hole in it, and as a result he cut into the bunion which then hurt him worsen ever.

Wes Woodruff went fishin to Gortchic Pond one day last wk. after pickerals, but Wes haddent been fishin moren 10 minnits until his hook got fast in a snag. Wes tried very gentle to git it loose for over a hour, but it

wouldnt come with gentleness and Wes got mad and thort hed try vilence, which he done and broke his line and walked back home (9 miles) in deep disgust.

Eph Higgins, our accomodating P. M., says that hes only got about 23 or so of two-cent stamps left, and warns them as desires stamps to buy same at onct being as when his present supply is exosted he dont kalkilate to lay in any more two centers until cooler fall wether being as during dogdays his stamps stiks together somethink awful in spite of all he can do.

Miss Susan Miller writes to us confidencial askin if we know of enny way to remove a wart from the nose. Susan has been bothered with a wart on her nose for severen years and has become cross-eyed lookin at the blame thing, which is right there under her nose all the time, as you mite say, and makes her look ridiculus. No, Susan, we dont know of enny way to remove a wart but praps Doc Livermore does. Why dont you consult him?

Little Sammie Jones got a awful pain to his stummick last wk. eating green apples. Why a boy who is as old as Sammie is and ort to have as mutch sense as a goos has ordinary will ete green apples when there is ripe apples to ete is moren we can anser.

Delishus Skandal!

Snide Petersby & Wife Has Separatted Agin!—This Aint the 1st. Time Neether!—As We Go to Press Snide Aint Been Heard From & Probably Wont Be!—Skandalus Partickers Below!

Jest as we go to press we lern that Snide Petersby and his wife Abagail has had domestick ruckshions agin and has separated as usual.

This aint the 1st time neether that Snide and his wife has broke up house-keeping and each one went their several ways as you mite say. Snide and Abagail has been married 11 yrs. and separated 14 times, until seperating has got to be a reglar habit with em.

Last time afore this that they separated was about nine monthis ago, when Snide carried a pail of slop thru the hall on his way to the pig pen becuz it was shorter to the pen that way than tother way, and tripped and fell, splashng the painful of slop all over the floor.

Abagail is a turrible neat housekeeper and fer a minnit or two the speckacle of that mess on her nice clean carpet nearly made her sick and after she got over her sickness she picked up a stick of kitchen stovewood (it was rock maple!) and let it fly at Snide and the stick tuk him jest above the right eye and knocked him flattern a flounder and when he come to he found hisself throwd bodily outen the house which he did not enter agin becuz Abagail was standin in the doorway, darin him to enter agin.

Snide picked himself up and migrated to the co. seat, where he secured a job and worked for a spell until he ernt a few dollers and wrote Abagail to this effect and she wrote him to come back

and she would live with him at least until the money was spent and praps longer, so Snide come and they have lived happy part of the time and part of the time they have fit like cats & dogs aint then until yesterday, when they separated agin.

Whenever in the past Abagail and Snide has separated they have allus become reconciled to each other agin. Time, that great healer of domestick affairs, has allus spread ham on their wounded feelings as we might say. We persoom it will be the same in this case, although the latest acts. we have heard as we go to press seem to indikate to the contrary. The way the last seperashon was brung about is as fol-lers:

Yesterday, after the shower, Snide, who had been down town into Hen Weathersby's store during the shower, walked home and being as his feet was a litle mite damp and awful muddy he walkt into the kitchen, where Abagail was workin with her back to him, and unbeknownst to her, he puled up a chair to the stove, opened the oven door and set down and stuck his great big lumminy muddy feet into the oven and rested em on a haff baked ginger bread cake which he diddnt know was there.

When Abagail turnd around and seen what he had did, Snide left home and he left home follered by all the pots and pans and spiders and kitchen utensils which Abagail could git her hands on in sitch short notice.

Snide kept on runnin until he got to the lower end of town, where he stopt to git his breth and to say to Lem Hill- yer who he met that he was on his way to the co. seat, where he would endeavor to git a job in order to git enuff money to secure a divorce from Abagail on the grounds of assalt & batterment with intent to kill, bein as he couldnt live with that woman and keep alive at it.

Lokal Breefs

We need rain. The apell crop looks promising and if you dont make and lay away a barl of cider for winter use and medicinal purposes (after it gits hard) it wont be nobuddys falt but your own.

Hi Henderson told Lem Peters down to Hen Weathersbys store tother day that he would sell him a rooster for 25 cts. which is dirt cheap for a rooster, and so Lem purchased the rooster sight unseen on the spot, but when Hi delivered the rooster to Lem it was a tantam rooster that weighed less'n a lb. Lem tuk the rooster and now he threatens to persecute Hi for selling him a rooster under false pertense.

Miss Almira Hobbs who sings in the church choir got turrible pale during services last Sunday mornin and walkt outen the church when the sermon was haff over and went home. Everybuddy thort Almira was sick, but sitch was not the case. Inquiry proved that Almira had on a pr. of new shoes which she bought over to the co. seat the day before. They was No. 6s, whereas Almira's reglar size is No. 8s, and this acts, for her discomfort.

Brad Tucker says that the intrust on his farm mortgage which Cy Hoskins holds will be do next wk. and that he (Brad) dont know a bit more where the money is coming from to pay off that intrust than he knows when he'll find a dollar rolling up hill. We persoom Cy will foreclose the mortgage and will soon own Brads farm. Cy has ackwired most of his welth in foreclosing mortgages on widders, orfans, et cetera.

Rev. Saml. Moore, our beloved paster of the Bingville church, has a turrible bad cold in his head, from which he has nearly sneezed his head offen his shoulders. Rev. Moore says he dont recollect that he ever had sitch a bad cold as this espeshially in the summer

time, which makes him think that the cold was sent on him as a punishment for some sin of omishion or commisshion he dunno whit.

Mrs. Ab Skinners bread diddnt turn out well last Saturday. She thinks she diddnt raise it enuff. Ennyhow it was as hard as a stone and Ab says he jest as leef try to crack a cobblestone with his teeth as to bite into one of them loaves.

Hez Andrews informs us that he expects two cows to come in fresh on him soon, and if so he will take orders for butter & milk being as he and his fambly cant use all the butter and milk from a cupple of cows and he mite jest as well sell it and make a doller on it.

These is all the lokals we are able to think up at the present writing. Some wks. personals is as thick as flees on a dogs back and then there'll come along a wk. like this when lokals is skeercern hens teeth almost. Why is this? Anser—We do not know.

If you had beet subscribers who owes us ennywheres from \$10 to \$15 per each has a few dollers that you dont know what to do with why dont you pay up your back subscriptions?

How About BerRies?

Berries is ripe incloodng strawber-ries raspberries, black berries et cetera berries too numerous to mentchion. For this reason I have decided to go into the berry pickin bizness until further notis & if you desire to purchase enny berries you ort to see me about it at onct.

I will pick you berries to can or berries to eat. What you want you can can. What is niser during the winter time when there aint no fresh fruit than to open up a nise can of berries?

If you want berries it will be necessary for you to bespeak them of-fer me in advance and I will take your order for same and fill it. Other- wise I would be a blamed fool to go and pick a whole mess of berries unless I had orders for same and let em spile on my hands.

Tell me how menny berries you desire and I will pick em to you. Wit strawberries is 8 cts per qt or 3 qts for a quarter. Raspberries 5 cts per qt and blackberries 2 korts for 10 cts. How does these prices suit you, hey?

Get your orders in early for I expect to be very bizzzy for the next few wks.

Yours for berries of every descripshon. **HAKE WHITTLEBY, Bingville. Berry Pickist.**

LEMUNADE! LEMUNADE! I have concluded to pick up a little odd change by selling lemunade every Saturday night while the warm wether lasts. I have made arrangements with Eph Higgins, our accomodating P. M., to fix up a place to sell this lemunade in the P. O., where you will find me on Saturday evg. when you come in for your mail whether you get enny or not. This lemunade is 1st class. A grate menny peepul dont know how to make lemunade. This is not so with me. Some peepul when they make lemunade put in too mutch sugar and too menny lemons. This makes it too sweet and too sour, spilling its flaver as you mite say. Now I take one lemon and slice it up into three or 4 gals. of worter and add a cupful of sugar and stir same and then its redy to drink. When its almost gone I add more worter and when its all gone I use the same lemun to make some more. The more you use a lemun in making lemunade the better it becomes. I lerned how to make lemunade at a co. fair onct, where I helpt a feller make a barl of it. Try some of my lemunade—it wont hurt you none and its liable to do you some good.

JASON TUCKER, LEMUNADER, BINGVILLE.
